HOW IT WORKS FOR YOUR SCHOOL

FREE INSTALLATION

We fund, install and maintain the entire solar PV system and heat pumps. **Zero capital cost** to your school — ever.

15% CHEAPER ENERGY

Buy the electricity we generate at **15% below** your current supplier's rate, with a cap & floor for budget certainty.

DECARBONISE YOUR SCHOOL

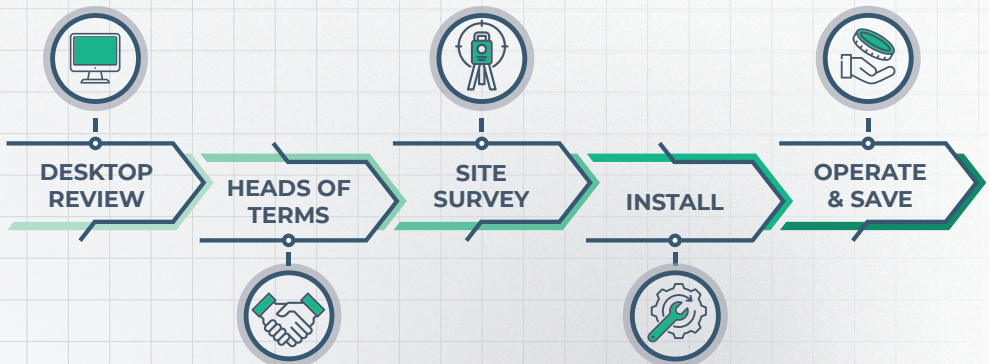

Generate clean, renewable energy on-site. Reduce your school's carbon footprint and **meet net zero** targets today.

WE HANDLE EVERYTHING

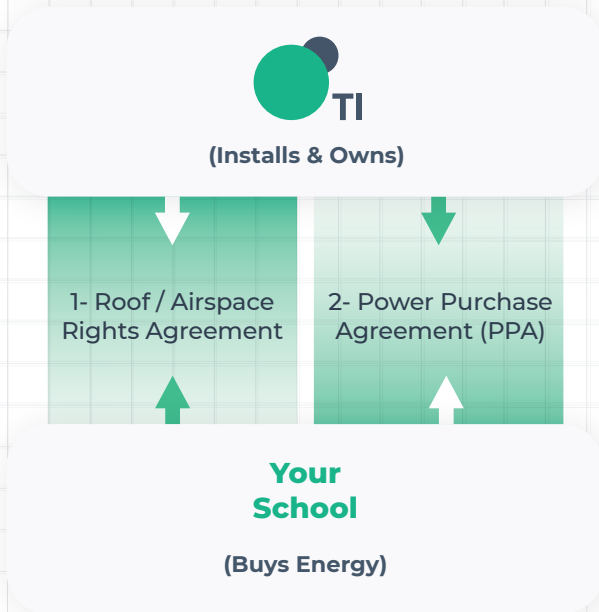

TI is responsible for all installation, operations, maintenance and insurance. **No burden** on your estates team.

2 OUR SIMPLE 5-STEP PROCESS

3 HOW THE CONTRACTS WORK

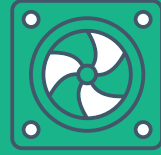

DfE COMPLIANT

Both contracts follow standard public-sector frameworks and DfE land consent guidance. School retains full building ownership throughout.

Schools keep their existing grid supplier for imports — there is **no exclusivity**. You simply buy the cheaper solar electricity when it is being generated on your roof, saving **15% on that portion of your bills** immediately.

SO UPGRADE YOUR GAS BOILERS FOR HEAT PUMPS

USE CHEAP SOLAR ENERGY TO HEAT YOUR SCHOOL
AT A FRACTION OF THE COST

DISCOUNTED CAPEX

Transition from gas to electric with a reduced CapEx heat pump when paired with solar.

CUT GAS BILLS

Powered by your discounted solar electricity. Reduce gas consumption dramatically.

HASSLE-FREE

Managed as a routine boiler upgrade under a standard JCT contract. Scheduled around school hours.
